

MODEL 721

Convection is the ideal way to cook foods evenly & quickly. This is our largest convection oven featuring a 3 step bake process with 20 programmable presets. It utilizes pans that are 50% larger than the industry standard 1/2 sheets, allowing you to bake more in less time.

FEATURES:

- Quick, easy 3 step bake process with 20 programmable presets
- Precise temperature and adjustable time control
- High speed fan for even air distribution
- Baking temperatures ranging from 150°F - 500°F
- Stainless steel construction
- Insulated, double wall construction
- Removable door and rack supports for easy cleaning
- 20 programmable baking presets
- Unit comes with (3) cooking racks & customized 16" x 18" aluminum baking pans. These pans allow 25% more cookies than a standard pan per bake cycle.
- Can accommodate (2) 16" pizzas per bake cycle

CAPACITY:

- 1.0 oz. cookie puck = 20 per tray
- 1.5 oz. cookie puck = 16 per tray

ACCESSORIES:

- 00721PS3 - 3 Aluminum Baking Trays Boxed Set
- 0027258-500 - 500 Count Parchment Paper
- 0027258-1000 - 1000 Count Parchment Paper
- 0027359CR - Cooling Rack Kit
